**MDUG – Meeting Tuesday 24<sup>th</sup> November 2009 5:00 p.m.**

**Presentation Topic:** “DB2 LUW v9.8 Purescale”.

**Presenters:** Boris Bialek (IBM Toronto)

**Presenter Biography:**

Boris Bialek is the Program Director of Partner Solutions in IBM's Data Management team. Being an industry veteran and after holding various positions at Digital Equipment, Compaq, and Dell, Boris joined IBM in 2001 to build up the DB2 Linux business. Since this year Boris has the responsibility for partner enablement, solutions, and emerging market enablement in the Data management team. His special interest is still the design of solutions for IBM's partner communities.

Recent solutions include the InfoSphere Balanced Warehouse C-Class offerings and virtual appliances. Boris holds a Master Degree in Computer Science from the University of Karlsruhe in Germany.

Boris works at the IBM Toronto Lab and travels the world running the IBM LUW “boot camp” training courses. Boris is in Australia to run a boot camp on DB2 LUW v9.7.
